

CIMON IPC AND AB BUNDLE

Still waiting for your Allen Bradley PanelView HMI to deliver? Rock Interface has a solution for you: the CIMON IPC and AB Bundle. The CIMON IPC is in stock in the size you need, pre-packaged with Allen Bradley run-time software so you can use your HMI programs without conversion or modification. Want a quote or have any questions? Contact us today.

CIMON is one of the leading industrial PC (IPC) manufacturers worldwide.

With over 20 years of experience in the automation industry, CIMON incorporates first-hand knowledge and wisdom into developing high-quality products.

CIMON's line of industrial computers comes preloaded with Windows or optional Linux operating systems and our UltimateAccess SCADA development + runtime license bundle. We build durable and stable IPCs that can withstand extreme temperatures, humidity, shocks, and vibrations so that you get back to work in even the most strenuous operating conditions.
