*Innovations in Automated Control Solutions*

*At Rock Interface, our mission is to provide quality automation solutions with excellent service that exceeds customer expectations.*

**Rock Interface Automation Products** is focused on providing the best industrial automation solutions for our customers. We provide a comprehensive line of innovative solutions that are known for their ease of use, flexibility, performance, and cost effectiveness.

**Rock Interface Systems Integration and Controls Engineering** offers flexible work agreements to either augment the clients' technical staff or provide full service turnkey automated system solutions where client resources are not available. What sets us apart from others is that we train our clients' personnel on our automated system design and programming to enable projects to be maintained in-house rather than locking our customers into a proprietary system, keeping the cost of ownership down.

**Rock Interface's Panel Shop** works hard to provide in-house panel build solutions. We can build to your design and UL-certified panels are available upon request, for the following certifications: **NITW - UL508a** **NRBX - UL698a** **NNNY - UL1203**

## ENGINEERING SERVICES

**ROCK INTERFACE** - Flexible work agreements to either augment the client's technical staff or provide full service turnkey automated system solutions where client resources are not available.

We train our client's personnel on our automated system design and programming to enable projects to be maintained in-house.

## PANEL SHOP SOLUTIONS

**ROCK INTERFACE** – We build to your design. In house testing and CAD services available, UL 508A Certified panel shop.

## CLOUD-BASED SCADA

**LEC** – iQ Web SCADA

**SECOMEA** – Data Collection Cloud (DCC), Data Collection Module (DCM)

## HMI

**CIMON** – Xpanel

**EXOR** – JSmart, eSmart Series, eTOP500, eTop300 Series, Handhelds

**MAPLE SYSTEMS, INC.** – Graphic HMI, Remote HMI, Graphic HMC, Open HMI, Alphanumeric OIT

**PARKER** – Windows HMI, Dedicated HMI

**RED LION** – Graphite HMI Panels, G3 HMI Panels, G3 Kadet HMI Panels

## INDUSTRIAL NETWORKING

**EXOR** – eXware

**RED LION** – Ethernet Solutions (Unmanaged Switches, Monitored Switches, Managed Switches, Power over Ethernet (PoE), IP67 & OEM Boards, Routers, Wi-Fi Radios, Accessories)

## INDUSTRIAL TOUCH

**CIMON** – IPC Industrial PC

**COMTRONIX** – Industrial Embedded Computers, Industrial Panel Computers, Industrial Touch Screen Monitors, Rugged Tablet Computers, Vehicle Mounted Computers, Industrial Barcode Scanners

**EXOR** – EPC, IPC, eCC, MON

**MAPLE** – Light Industrial Panel PC Series, Heavy Industrial Panel PC Series

**PARKER** – Industrial PCs

## PANEL ACCESSORIES

**LASCAR** – Panel Instruments, Power Supplies

**RED LION** – Panel Meters, Panel Meter Accessories

## PLC & RTU

**CIMON** – PLC is an industrial control device based on international standards of IEC61131 which is appropriate for the plant site that requires high reliability.

**EXOR** – eX705, eX707, eX710, eX715, eX721, eXware 703

**LASCAR** – Data Loggers

**LEC** – Industrial IoT RTU

**RED LION** – Data Station Plus, Modular Controller, RAM 9000 Cellular RTUs, RAM 6000 RTUs, EtherTRAK-2 I/O, IPM Industrial RTUs

**SOFTPLC** – Smart SoftPLC family of controllers

## REMOTE SITE COMMUNICATIONS

**EXOR** – JMCloud, Corvina Cloud 1.0, Corvina Cloud 2.0

**LEC** – Cloud Gate, Industrial Cellular Services

**ROCK INTERFACE** – R.O.C.K. Box – Remote Onsite Communication Kit. The designed purpose of this enclosure is to allow multiple ways of remote communication to field machines and equipment during a startup or a trouble shooting process.

**SECOMEA** – SiteManager Hardware, SiteManager Software, LinkManager Software

**SOFTPLC** – SoftPLC Gateway includes A-B RIO, DH+, Modbus, Ethernet/IP and ModbusTCP ports.

## LOCAL SCADA

**CIMON** – UltimateAccess – Industrial Monitoring & Control “Without Limits”

**EXOR** – JMobile, JMobile 4 Web

**PARKER** – InteractX – Windows Supervisory HIM Software

**RED LION** – Data Station Plus – Single-device solution for protocol conversion.

## VISUAL MANAGEMENT

**EXOR** – Digital Marquee Series, Ethernet IP Marquee, Messenger Marquee Series, Modbus Marquee Series, Production Marquee Series

**LASCAR** – PanelPilot Displays

**MAPLE** – cMT = Control and Monitor, from the plant floor and beyond. RMI5001

**RED LION** – ProductVity Station, Large LED Displays
